Accelerated Licensure Program for Superintendents

The Ohio State University College of Education and Human Ecology
Department of Educational Studies
Program Requirements – 12 semester hours

The Accelerated Licensure Program for Superintendents is designed to address the fundamental needs of school superintendents in the 21st century. Those needs are met by experiences related to governance and communications with the community as well as by understanding sound business practices of educational institutions. In addition, the needs are met by experiences in educational leadership, and teaching and learning. Finally, practical experience in the form of a district field experience caps the elements of governance, business practices and educational leadership.
