*Summer and Autumn Internship Opportunities Only*
Walk with a Doc was started in 2005 by Dr. David Sabgir, a cardiologist in Columbus, Ohio. Frustrated with his inability to affect behavior change in the clinical setting, Dr. Sabgir invited his patients to go for a walk with him in a local park on a spring Saturday morning. To his surprise, over 100 people showed up, energized and ready to move.

Since that first event in 2005, Walk with a Doc has grown as a grassroots effort, with a model based on sustainability and simplicity. [A doctor gives a brief presentation on a health topic and then leads participants on a walk at their own pace. Healthy snacks, coffee and blood pressure checks are also a standard part of a Walk with a Doc event.] The Walk added an Executive Director in 2009 and focused on building a program that could easily be implemented by interested doctors in other cities around the country. As a result of these efforts, the reach of Walk with a Doc now extends all around the globe with over 300 chapters worldwide! Contact Rachael Habash, Executive Director, to find out how you can help make a difference.
